RESORT
There are places that seem to have always been there.
Places that the soul recognizes, even though the
consciousness is barely aware of them.

Welcome to **Ostuni Art Resort**

THE PROPERTY

Sometimes even a fleeting scent or soft breeze suffices to awaken a childhood memory or evoke an image that says: **I am home**.

Just the sight of the ancient trulli nestled amidst an olive grove seemingly forgotten by time is like meeting a soulmate. There's nothing alien here, no unease. You reach out touching the gnarled trunk of an olive tree that has stood in this very spot for centuries, even millennia.
The aromas of lavender, citrus blossoms, rosemary, basil and dry soil soothe and invigorate at the same time. The chirping of crickets and the faint rustling of the treetops are the only intrusions to the eternal silence of this untouched landscape. The two brothers Giorgio and Giulio Angella wanted to create a nucleus for their families and friends.

A place where they could come together with loved ones and wile away the minutes, hours, days. They also conceived it as a place of coming together for groups of friends and families.

A place for celebrating shared cultural roots and for bolstering relationships. The Angella brothers deeply understand the importance of doing so, and created the Ostuni Art Resort with this vision in mind.

Coming home

An **exclusive** Resort

SPACES

Ostuni Art Resort is a great example of local rural architecture. Whilst these splendid Trulli and beautiful stone buildings were formerly rural housing, today they have been renovated and restored with quality and fine materials and equipped with every comfort without altering the original character.
The three separate buildings are conceived of as different environments of a unique villa. The concept is to unite them together through the common areas: the large kitchen and the living room, the pool and its nearby areas, the bbq area with wood-burning oven. They are all welcoming environments where family and friends have the opportunity to spend a wonderful holiday in complete privacy.

In total there are 7 rooms as well as a sleeping area in the living room, 2 kitchens, 3 living rooms, one of which is very large and various outdoor spaces that revolve around the large pool.

Perfect for travellers looking for authenticity, hospitality, exclusivity and privacy.

The pathway running through ancient olive groves is bordered by dry stone walls on both sides. Beyond an unassuming gate in the midst of a sunny clearing, the Ostuni Art Resort comes into view, completely out of the blue. The complex is so at one with nature that it practically melts into the fertile landscape that surrounds it.

Every piece of furniture is made in Italy, sometimes exclusively for the resort other times they are unique pieces recovered by expert restorers.

"The Ostuni Art Resort is an ode to joie de vivre and to the company of like-minded people."

Tradition meets **comfort**

THE BEDROOMS

The bedrooms at Ostuni Art Resort are a harmonious blend of tradition and comfort. Thoughtfully restored within the historic Trulli and stone buildings, each room preserves the authentic charm of rural Puglia while offering modern amenities for a luxurious stay.

Designed to provide tranquility and privacy, the seven bedrooms—along with an additional sleeping area in the living room—are ideal for accommodating families or groups of friends.
The unique layout ensures a seamless flow between indoor and outdoor spaces, making every moment at the resort an experience of relaxation and connection with the surrounding beauty.

The heart of **culinary moments**

THE MAIN KITCHEN

The Main Kitchen at Ostuni Art Resort is a fully equipped space designed to inspire culinary creativity. Guests can utilize its modern amenities and ample space to prepare their own meals or entrust it to their personal chef for a more tailored experience.
Each morning, the resort provides a delightful Continental breakfast here from 8:30 AM to 10:30 AM.
For those opting for the Fully Staffed service, the kitchen becomes the chef's domain, ensuring every dish is crafted to perfection.
Spacious refrigerators keep beverages and ingredients fresh, making this kitchen the heart of unforgettable dining moments.

The Garden of **flavors**

THE GARDEN

At Ostuni Art Resort, the vegetable garden is a treasure trove of fresh, seasonal delights. Cultivated with care, it offers a variety of herbs, vegetables, and aromatic plants that guests can savor during their stay.

Whether enjoyed in the chef's creations or picked fresh for a homemade dish, the garden embodies the authentic flavors of Puglia. This lush green space is not only a source of ingredients but also a serene spot to connect with nature and appreciate the simplicity of the land.

THE LIVING SPACES

The natural stones of the walkways, perimeter walls and building complex blend seamlessly into the rich green and earth tones of the surrounding landscape. The whitewashed slate roofs of the five trulli, the green-blue frames of the doors and windows, and the dazzling pool in the heart of the resort add a dash of color and joy.
In addition to a good-sized swimming pool, guests can keep in shape using the small, well-equipped gym inside the pool house: there's a treadmill, exercise bike, weights and floor mats. The ping-pong table outside guarantees fun as well.

BY THE POOL

The pool at Ostuni Art Resort is the perfect centerpiece for both relaxation and fun. Surrounded by comfortable sun loungers, it invites guests to unwind under the warm Puglian sun or enjoy a refreshing swim. The poolside area features shaded spots for lounging and socializing, creating an ideal setting for leisurely afternoons. For those seeking activity, the nearby amenities include a small gym equipped with essentials like a treadmill, exercise bike, and weights. Guests can also engage in friendly matches of ping pong or foosball, making the poolside a hub for both relaxation and recreation.

THE COLLECTION

The Ostuni Art Resort is a living testament to the artistic vision and dedication of Giorgio and Giulio Angella. Passionate collectors of contemporary art, the brothers have curated an extraordinary collection that brings vibrancy and inspiration to the resort.
This artistic soul complements their vision of creating a welcoming haven, born from a desire to share special moments with friends, family, and guests who embrace the resort's exclusivity.
Deeply rooted in Puglian culture, the resort combines authenticity with sophistication, offering unforgettable experiences shaped by local culinary, cultural, and scenic treasures.

The presence of contemporary art energizes and enriches the resort's atmosphere.
